ÜBERLuxury

Old Hollywood glamour makes a nostalgic comeback. Simple, graceful lines. Highly-polished metals. Dark, exotic woods. Solid crystal glassware. Sensuous silk, satin, leather and suede fabrications. And monochromatic tones punctuated with vibrant colour accents.

URBANLoft

Youthful vibrancy meets modern sophistication. Daring accent colours like orange are anchored by more subdued browns and blue-grays. And shinier chromes and stainless steel are softened and tamed by natural woods and matte metal finishes.

NEW Elegance

A fashion-inspired look that any room can wear well. Feminine and romantic, it's all about texture, pattern and adornment. Beautiful chandeliers are its trademark; turning up in the most unexpected places. Grayed pink tones dominate, as do cosmetic peachy pinks.

GLOBALFusion

East meets West. A merging of styles from around the world is behind this eclectic look. Elements include exotic teak, bamboo and cork furnishings. Traditional ethnic prints, silks, grasscloths and weaves are also pronounced with colours ranging from the light, airy and tropical to the deep, rich and spicy.

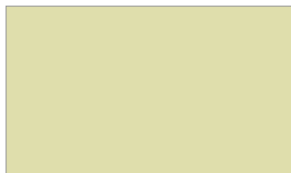

TECHNOsavvy

Everything is going digital. Including décor. Cool metallics in silver, aluminum and chrome are combined with fun, geometric patterns and techno graphics. Colour-wise, acidic yellow-greens, blues and teals are grounded by whites, blacks, grays and other neutrals.

Since all colour chips are affected by age, lighting conditions, heat and mechanical coating processes, the chips on this card may vary slightly in colour or finish from the actual paint in the container. Due to clarity and depth of colour, some colours may require multiple coats. A slight variation in colour may be observed between products due to differing resin systems, sheen or lighting conditions. Pearlescent glazes perform best when applied using a faux finish technique over a solid base coat of Benjamin Moore Collection in an eggshell or higher gloss.
