

RANGE ROVER SPORT

2012

It is the definitive luxury sports tourer.
Defined by exceptional on-road dynamics,
comfort and outstanding breadth of capability.
Muscular body styling, a sumptuous interior
and the choice of two powerful, exceptionally
refined engines. It is now upgraded, enhanced
and improved with significant developments to
the exterior, interior and powertrain. It is even
better than ever. It is Range Rover Sport.

Image shown: Range Rover Sport HSE, Indus Silver

Introduction	PAGES 1-3
Range Rover Sport A stylish, sharper, more contemporary identity	PAGES 4-9
Interior Sporting luxury and intuitive technology	PAGES 10-17
Two superb engines Power, performance and refinement	PAGES 18-21
On-road and Off-road All-terrain capability, outstanding on-road dynamics and comfort	PAGES 22-27
Safety Smart technology, safe technology	PAGES 28-33
Autobiography Sport The ultimate expression of luxury and sophistication for Range Rover Sport	PAGES 34-39
Technical Data and Personal Choices Models, engines, interior and exterior, colours and materials	PAGES 40-55
Range Rover Vehicle Kit Adding extra capability, more presence and making it your Range Rover Sport	PAGES 56-65
Our Planet Our plan for a sustainable future	PAGES 66-67

Alluring and reinvigorated once again. Ready, poised in anticipation of the drive ahead. Range Rover Sport is assertive, with a unique identity and a low-to-the-road, contemporary appearance. Range Rover Sport, with its muscular, sharp attitude looks like it's moving, even when it's standing still and is now even more modern, even more up-to-date with new styling and even more practical with features such as the new powered tailgate.

Stylish, bold with even more contemporary, smarter looks and enhancements all round. Range Rover Sport features Range Rover signature 'concentric circle' headlamps and a 'twin stripe' design on grilles, vents and lights for charisma and a truly purposeful line. And now grilles and vents receive even more emphasis with the introduction of stylish black surrounds. This is the latest Range Rover Sport.

Range Rover Sport now has even more appeal. There is a new Sparkle Finish 20 inch alloy wheel style with 'Range Rover' wheel centres. Plus co-ordinated finishes on the exterior grille, vents and door handles. And the practicality of the new powered tailgate.

Image shown left: Range Rover Sport Supercharged with 'Style 9' wheel, Nara Bronze

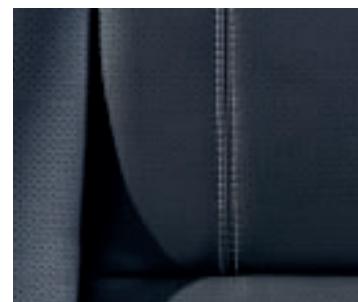

The superb interior provides premium levels of craftsmanship and comfort. Tactile materials create a superior ambience of quality and prestige. Interior mood lighting enhances the experience of night-time driving. For the ultimate expression of sporting luxury Autobiography Sport offers even more individual style through exclusive interior colour choices in the finest materials.

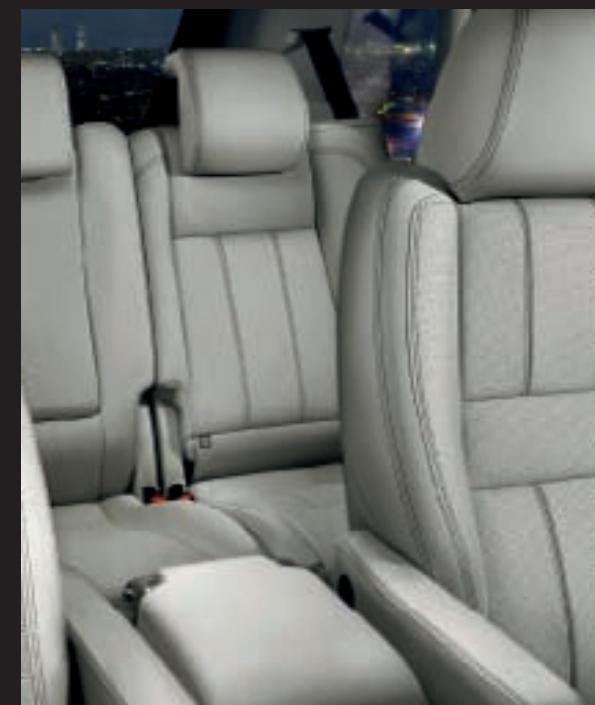

An acoustic windscreens and laminated front side glass raise cabin refinement and improve noise insulation.

Range Rover Sport seats are made to sit in, not on, and create a luxurious, long-range comfort and sporty experience. Driver's electrically adjustable seat bolsters are available. Range Rover Sport seats are offered in an exciting variety of colours and in two grades of leather, as well as leather combined with Alcantara®. Contrast stitching is standard with Premium Oxford leather and leather combined with Alcantara®. An Extended Leather Pack, which features a dash finished in fine hide is optional on HSE w/LUX and standard on Supercharged models.

As the definitive luxury sports tourer, Range Rover Sport is the place to be for both driver and passengers alike. The dynamic cockpit interior is designed to cosset and cocoon, while the legendary command driving position offers a clear view of the surrounding environment and helps to put the driver in complete control.

Luxurious. Step inside Range Rover Sport. The unique cockpit driving position puts the centre console and controls all within easy reach, while the instrument panel and instrument cluster all place the emphasis on a sublime driving experience. In fact, the Range Rover Sport interior just keeps getting better.

Infotainment also takes a major step forward with the latest electrical architecture which allows easier connection of external devices.

There is also the availability of Hard Disk Navigation, Rear Seat Entertainment, WhiteFire wireless technology and a **harman/kardon®** high-performance sound system.

The superb In-Car Entertainment system offers unparalleled performance as well as a truly extraordinary, all round sound experience.

Range Rover Sport can be tailored to even more individual tastes and practical needs with Autobiography Sport as well as a number of option packs that are available across the model range.

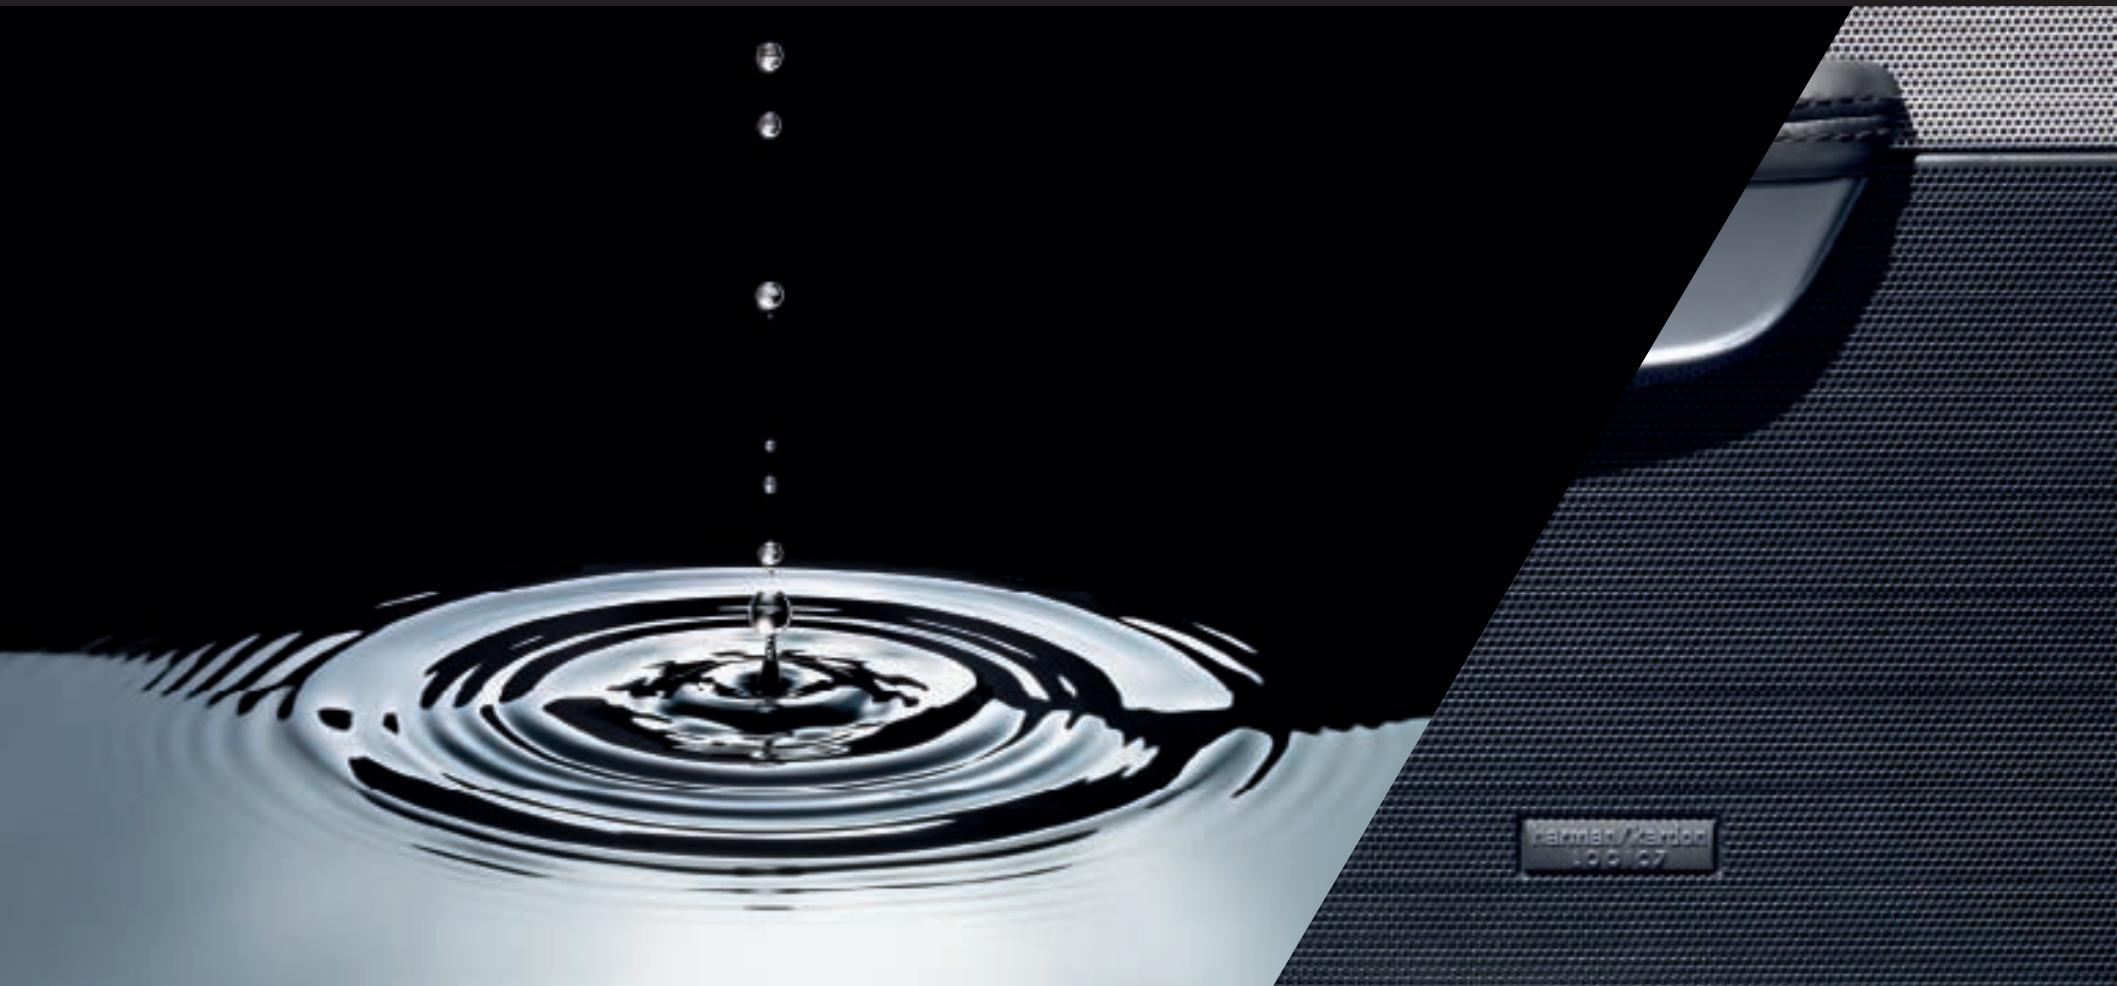

Easy-to-use Human-Machine-Interface (HMI) Touch-screen with entertainment, information, navigation and communication functionality.

Instrument panel with five inch Thin Film Transistor (TFT)-LCD technology.

Steering wheel with two separate five-way navigation toggle switches to maximize control and ease-of-use of the Infotainment system and functions on the five inch TFT-LCD screen.

The refinement of Noble-plated finish and wood veneer trim for a luxury ambience.

Intuitive, easy-to-use access to Infotainment. Providing a hub for all audio, communication and navigation, as well as being the focal point of the centre console, is a full-colour Touch-screen. The Touch-screen not only adds to the premium character of the interior; it also reduces the number of conventional controls required on the console and improves driver ergonomics.

A range of superb **harman/kardon®** In-Car Entertainment options are available depending on your choice of vehicle. Every system now features a minimum of 11 speakers and a power output that is increased from 240W to 380W. The premium system increases its number of speakers from 14 to 17 with the power output rising from 480W to an impressive 825W.

A new Rear Screen Entertainment system is available with eight inch screens in the back of the front headrests, WhiteFire infrared headphones and a new Touch-screen remote control and docking port in the rear centre armrest.

The Portable Audio Interface allows an iPod® device to be connected to the In-Car Entertainment system, which includes full track and search integration. An MP3 player or a mass storage device can also be connected via the USB port.

Vehicles equipped with Hard Disk Navigation include DVD Audio and MP3 DVD playback as well as a Virtual CD Auto Changer. The Virtual CD Auto Changer can save as many as 10 albums in high-quality lossless format to the hard disk drive and provides track information for easy identification of CDs and tracks.

Bluetooth® audio streaming is also available enabling music to be played through the In-Car Entertainment system via a Bluetooth® connection.

LAND
ROVER

AIRBAG

The multifunction steering wheel gives fingertip control of key functions.

Steering wheel mounted shift paddles are standard on the Range Rover Sport Supercharged.

Passive keyless entry gives driver access without the necessity of using the smart key's unlock button. The vehicle is automatically unlocked and the immobilizer deactivated when the smart key comes within close proximity and a door handle is pulled.

Push button Start/Stop. Push-button keyless start couldn't be simpler. The vehicle is started by pressing the dash-mounted push button while applying the brake pedal. There is no requirement to dock the smart key.

Control. Range Rover Sport features Land Rover's legendary command driving position which gives better visibility of the road ahead for the earlier recognition of hazards and helps when manoeuvring. Even the passengers enjoy an expansive view of the world around them.

The centrepiece of driver information is the instrument panel with its five inch Thin Film Transistor (TFT) display technology. Instead of traditional gauges, this TFT screen offers several personalization setting options, such as drive-away locking, speed warning, optional High Beam Assist and more. With its high contrast and sharp resolution, this TFT display communicates information at a glance. Importantly, the display can be operated using a simple menu system controlled by the five-way navigation toggle switches on the steering wheel.

Power. Performance. Two utterly refined engines to suit personal preference and requirements in a carbon-conscious world – LR-V8 and LR-V8 Supercharged both with the latest generation 6 speed automatic transmissions with CommandShift®.

Choice. The right engines for a diverse variety of driving styles and performance requirements. Each one offers unparalleled levels of refinement, progressive power on demand and torque.

LR-V8 Supercharged

510bhp and 461ft/lbs of torque. Highly efficient, spray-guided direct injection.

LR-V8

375bhp and 375ft/lbs of torque with cutting-edge powertrain technologies for an outstanding blend of power and efficiency. Highly efficient, spray-guided direct injection.

e_TERRAIN™ TECHNOLOGIES is a unique engineering philosophy and commitment to sustainable initiatives which uses the latest creative and innovative technology to make continual and significant improvements to the environmental performance of all Range Rover vehicles.

Advanced. Range Rover Sport has many advanced dynamic technologies that combine to deliver exhilarating on-road performance.

The Range Rover Sport Supercharged features Adaptive Dynamics with Dynamic Program, the world's first production system of its kind to be based on predictive technology. Adaptive Dynamics on the Range Rover Sport Supercharged offers performance for combined on- and off-road driving. Standard on Supercharged, Adaptive Dynamics* works by predicting the response to driver input, allowing the system to mitigate any excessive movement, rather than a traditional system which reacts after the vehicle has already moved.

The Dynamic Program setting is selected via the Terrain Response® system which utilizes Adaptive Dynamics to give an even more engaging drive and reinforces Range Rover Sport on-road driving dynamics. On Range Rover Sport Supercharged models, the system can provide more performance-orientated responses to input by remapping steering, throttle and gearbox settings.

*The features described herein are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult owner's manual or your local authorized Land Rover Retailer for more details.

Image shown right: Range Rover Sport Supercharged, Fuji White

Thanks to Dynamic Technologies Range Rover Sport is the best ever Range Rover for driver-focused dynamics and performance. From the smoothest roads, to more extreme rough surfaces and poor weather conditions, the vehicle delivers a sense of confidence and security.

More experience. The Terrain Response® system gives access to over 60 years of Land Rover all-terrain drive expertise and state-of-the-art dynamic technology. Terrain Response® is your own driving expert with you in the vehicle at all times. Simply set the conveniently positioned control to the appropriate icon and the Range Rover Sport engine, transmission, suspension and traction settings reconfigure for optimum driveability in multitudes of conditions.*

The Terrain Response® system on Range Rover Sport Supercharged includes a sixth position on the dial, Dynamic Program, which gives an on-road focus to the vehicle's Adaptive Dynamics settings.*

Dynamic Program

General Driving

Grass, Gravel, Snow

Mud & Ruts

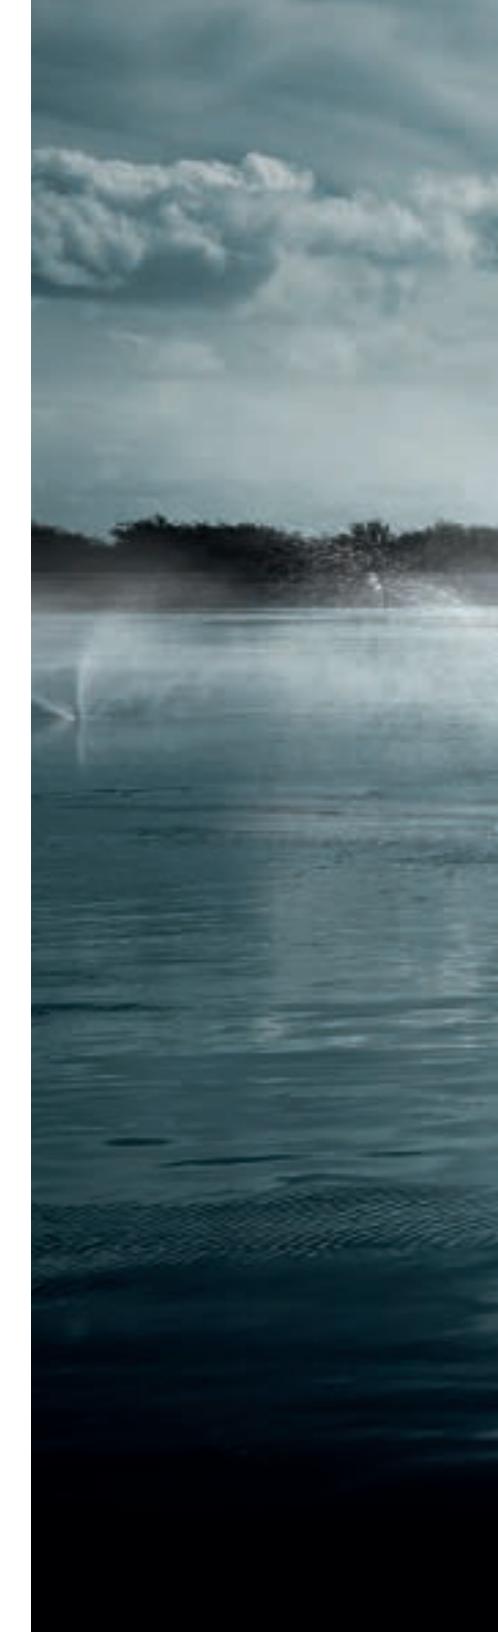

Sand

Rock Crawl

The Terrain Response® system includes Sand Launch Control as part of the sand mode. Sand Launch Control helps prevent the wheels spinning when moving off from a standstill. Once the vehicle reaches the appropriate speed the slip thresholds are increased to maintain progress. This technology takes yet another step forward with Gradient Acceleration Control and Hill Start Assist. Gradient Acceleration Control helps reduce, and smooth out the effects of, the sudden initial acceleration that can occur when the vehicle enters a steep gradient. Hill Start Assist automatically releases brake pressure progressively on a steep gradient and helps prevent the vehicle from inadvertently rolling backwards.*

Another cutting-edge feature is Trailer Stability Assist (TSA). Using onboard sensors that detect the presence of a trailer, TSA identifies trailer sway to trigger active braking, cut engine output and stabilize the trailer.*

*The features described herein are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult owner's manual or your local authorized Land Rover Retailer for more details.

Adaptive Cruise Control (ACC) with Advanced Emergency Brake Assist uses radar to scan the road 10 times a second. ACC is designed to automatically match the pace of the vehicle ahead, settling Range Rover Sport down behind it and maintaining a constant speed with one of four cruise gap distances set according to the driver's preference.*

Forward Alert gives an audio and visual alarm when the distance to the vehicle in front decreases. Advanced Emergency Brake Assist is designed to detect a possible collision and prepares the brake system for emergency braking, then assists the driver as he or she brakes by applying full-force braking even if pressure on the pedal is light.*

ACC helps reduce the need for driver intervention and assists in creating a more relaxing, more comfortable journey.

Xenon lighting with LED technology and Range Rover signature 'concentric circle' design give Range Rover Sport a striking headlight identity.

Automatic headlights with High Beam Assist detect vehicle headlights/tail lights and dip the high beam until the light source is out of range.

To cope with the demands of sports tourer performance, every Range Rover Sport has brakes that are engineered for maximum stopping power and to enhance the driver experience. The Supercharged model has high-performance six piston fixed caliper front brakes.

*The features described herein are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult owner's manual or your local authorized Land Rover Retailer for more details.

The Rear View Camera displays a rearward view from the vehicle on the Infotainment screen to aid with parking. Manoeuvrability lines representing the vehicle's perimeter superimpose a path on the rearward image.

An available Surround Camera system technology utilizes five discreetly placed digital cameras to relay an almost 360 degree view around the vehicle to the Touch-screen display on the centre dashboard. The system provides a number of driver-assist features, for example zoom and pan, which can be invaluable in situations such as parking, towing or hitching a trailer.*

The Hard Disk Drive (HDD) Premium Navigation system allows features to be accessed more quickly, for example, route finder and route recalculation times are significantly reduced, help minimize delays in determining directions for the driver. The system can also be updated with the latest mapping information via your Land Rover Retailer.

Five digital cameras are housed around the vehicle; two on either side of the front bumper, one in each of the door mirror casings and one in the rear spoiler.

The features described herein are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult owner's manual or your local authorized Land Rover Retailer for more details.

Image shown right: Range Rover Sport HSE with 'Style 3' wheels, Nara Bronze

Range Rover Sport has a highly rigid body, with its low centre of gravity and energy-absorbing crumple zones offer impressive levels of safety and occupant protection. Dynamic Stability Control (DSC) monitors wheel speed and steering angle to help make cornering safer and more stable.*

DSC applies ABS braking to individual wheels to support and maintain control. Further improvements to the Stability Control Systems include Roll Stability Control and Enhanced Understeer Control. Range Rover Sport displays real strength in impact tests, thanks to its hydroformed frame design and advanced engineering. For added peace of mind the vehicle is equipped with front and side curtain airbags that are fitted to protect both front and rear passengers.

*The features described herein are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult owner's manual or your local authorized Land Rover Retailer for more details.

Autobiography Sport is the ultimate expression of sporting luxury, individual style and is the pinnacle of the Range Rover Sport model line-up. It is an opportunity to express yourself in your own unique way through an impressive selection of exclusive interior colour choices in the finest materials.

Autobiography Sport now offers even more and is available with luxury orientated interior themes. All include the following styling features as standard:
Exterior Design Kit, Autobiography Sport unique Atlas Front Grille, Atlas Side Vent, Autobiography Sport 20 inch Alloy Wheels, Stainless Steel Door Tread Plates.

RANGE ROVER SPORT AUTOBIOGRAPHY

In pursuit of sporting pedigree. Adding even more presence and head-turning assertiveness to the already muscular form of the Range Rover Sport. The Autobiography model's unique exterior body design elements set the Range Rover Sport even further apart from its rivals with more attitude and more sporting appeal than ever before. It's the look that just has to be driven.

Fuel tank capacity 88.1 litres (23 US Gallons). Low fuel warning at approximately 9 litres (2 US Gallons).
 *Includes 100% fuel, fluids, tools, spare wheel, without occupants.

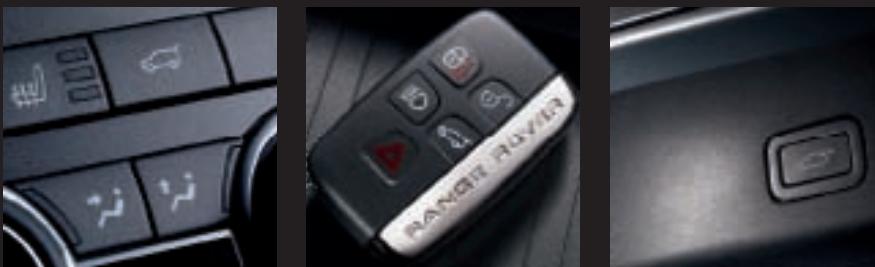

Wading Depth
 Maximum front headroom 39.4 inches/1,000mm

The power tailgate adds practicality and makes life with your Range Rover Sport even easier. Opened at the touch of a button on either the fascia or the key fob, the opening height is programmable to suit personal preferences and accommodate more confined loading areas. The tailgate is closed via a button on the inside of the trunk lid.

There are three ways to operate the power tailgate:
The fascia. The key fob. The tailgate.

RANGE ROVER VEHICLE KIT

Accessories make this your new Range Rover Sport. Add even greater luxury and exclusivity to the interior or add even greater capability to suit an individual lifestyle. Accessories can be added at any stage during the vehicle's life. Not just when it's new. And remember, Range Rover Approved Accessories are designed and manufactured to the same exacting standards as the original equipment fitted to your vehicle. For more information please contact your local Land Rover Retailer.

Visit www.LandRover.ca for more information.

Daytime Running Lamps*
Standard Front Bumper

Compatible with 2010-2011 Model Year Exterior Design Pack.

Snow Traction System
LR005737
For front 18 inch, 19 inch and 20 inch wheels only.

The alloy wheels shown on pages 44-45 may also be available as an accessory fitment. Please see your Land Rover Retailer for further details.

Range Rover Tyre Valve Caps
(set of 4)
LR027663
Enhance your alloy wheels.

**Roof Rails and Crossbars***

VUB502130

Crossbars easily removed when not in use. Vehicle height when fitted 1,873mm/73.74 inches at normal ride height.
Load capacity 71.8kg/158.29lbs.

**Luggage Box***

VPLVR0062

Gloss Black finish. Opens from both sides. Lockable for security.
External dimensions: 1,750mm/68.9 inches long, 820mm/32.3 inches wide, 450mm/17.7 inches high. Volume 440 litres/116.2 gallons.
Load capacity 75kg/165.3lbs†.

**Sports Box***

VPLVR0061

Gloss Black finish. Can be mounted on either side of the vehicle for kerbside opening in any country. Internal retention system for skis or other long loads. Lockable for security. External dimensions: 2,060mm/81.8 inches long, 840mm/33.1 inches wide, 340mm/13.4 inches high. Volume 420 litres/111 gallons. Load capacity 75kg/165.3lbs†.

**Ski and Snowboard Carrier***

LR006849

Carries four pairs of skis or two snowboards. Incorporates slider rails for easy loading.
Lockable for security. Load capacity 36kg/79lbs†.

**Aqua Sports Carrier***

LR006846

Carries one surfboard, kiteboard or sailboard and mast.
Load capacity 45kg/99lbs†.

**Luggage Carrier***

LR006848

Load capacity 62.6kg/116lbs†.

**Expedition Roof Rack***

CAB500130PMA

For vehicles with Roof Rails, Fitting Kit (VUB504230) is required.
Load capacity 54.3kg/119.7lbs†.

**Lashing Eye Kit***

VUB503160

Six additional tie-down points for use with Crossbar T-slots.

Ratchet Strap

CAR500010

Tie strap for securing items to the Luggage Carrier or Expedition Roof Rack. 5 metres/196.85 inches long, 20mm/0.79 inches wide.
Supplied individually.

**Tow Bar Mounted Bike Carrier**

LR008387

Transport up to four bicycles with this rack, which works with the Tow Hitch Receiver. Swings away from the vehicle for easy access to the loadspace.
Features a bike lock and a hitch lock. Requires Tow Hitch Receiver LR01990.

**Tow Hitch Receiver**

LR01990

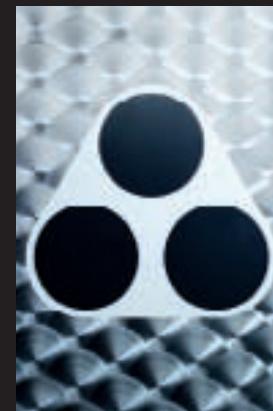

Tow your boat, trailer or other mode of transportation with help from this sturdy, lockable hitch receiver. Can handle up to a 3,507kg/7,716lb trailer load capacity and a 250kg/550lb tongue weight capacity. Removes easily from vehicle for convenient, discreet storage in an accompanying bag.

**Towing Electrics****

[Combined 7- & 4-pin]

[VPLST0016 – (not shown)]

Power and light your trailer with sockets inserted on your Range Rover Sport.

**Tracking Target Sticker**

LR021589

Additional sticker required for vehicles equipped with Surround Camera System option which includes Tow Assist.

Cargo Barrier*

VUB502080

Easily removed, incorporates useful integral ski hatch. Complies with ECE regulation 17.

Cargo Divider *

EOH500140PMA

Separates pets from cargo. Must be fitted with Cargo Barrier.

Loadspace Luggage Rails

VPLSS0138

Load Retention System

VPLVS0125

To secure luggage within the loadspace. Flexible and rigid luggage retainers with four D-ring fasteners included.

Requires Loadspace Luggage Rails – VPLSS0138.

Stainless Steel Sill Tread Plates

LR006788 – Four piece kit

Stylish protection for both front and rear outer door sills.

Illuminated Tread Plates

Ebony – VPLSS0140PVJ

Nutmeg – VPLSS0140SVB

Ocean – VPLSS0140HFX

Aperture Retention Net

VPLSS0139

Loadspace Rubber Mat

VPLSS0043

Waterproof with retaining lip and non-slip surface.

Rigid Loadspace Protector

EBF500020

Non-slip surface. Not compatible with Cargo Barrier or Cargo Divider.

Flexible Loadspace Protector

VPLSS0016

Heavy duty fabric protects loadspace up to window height. Covers full loadspace even with rear seats folded. Includes protective gloves.

Stainless Steel

Rear Bumper Tread Plate

LR007321

Provides protection to the upper surface of the rear bumper.
Compatible with all models except vehicles fitted with Stormer Pack,
2005-2009 Model Year.

(not shown) – LR007322

Compatible with Stormer Pack 2005-2009 Model Year only.

Rubber Mat Set

LR006242

Premium Carpet Mat Set

Deep pile carpet mats with
waterproof backing.

Ebony (shown above)

VPLSS0025PVJ

Nutmeg (shown top)

VPLSS0025SVB

Ocean (shown bottom)

VPLSS0025HFX

**Electric Cool Bag**

VUP100140L

Powered by the 12 volt auxiliary socket. Thermostatically controlled temperature.
Easy clean interior surfaces. Height: 380mm/14.96 inches, length 380mm/14.96
inches, width 220mm/8.66 inches. Volume 14 litres/14 quarts.

TOURING ACCESSORIES**Load Retention Net**

(not shown) – VUB503130
Utilizes loadspace tie-down points. Includes floor net and two ratchet straps.
Strap length approximately 2 metres/78.74 inches.

Front Screen Shade

(not shown) – VPLFY0069
Reflects the suns rays and helps to keep the interior of your vehicle cool.

Bulb Kit

(not shown) – VPLSV0017
A selection of essential bulbs are a legal requirement in certain countries.

Tow Strap

(not shown) – STC8919AA
Includes storage bag that can be attached as a warning flag to the strap.
3,000kg/6613.87lbs maximum load capacity.

Trailer Hitch Kit

(not shown) – VPLAY0060
This works with the Tow Hitch Receiver (LR019990).

**Waterproof Seat Covers**

Ebony Front Seat Pair – with
DVD Headrest

VPLSS0136PVJ

Front Seat Pair
(not shown) – VPLSS0135PVJ

Rear Seat Set
(not shown) – VPLSS0137PVJ

Almond Front Seat Pair – with
DVD Headrest

(not shown) – VPLSS0136SVA

Front Seat Pair

VPLSS0135SVA

Rear Seat Set

(not shown) – VPLSS0137SVA

LandRover.ca/
ourplanet

At Land Rover we do this by investing in four key areas:

e_TERRAIN™

TECHNOLOGIES. EFFICIENT POWER SYSTEMS, LIGHTWEIGHT STRUCTURES, REDUCED EMISSIONS

A joint £800m investment into new technologies designed to reduce CO₂ emissions and improve fuel consumption. We are targeting a 25 percent reduction in joint fleet average tailpipe CO₂ emissions by 2015, as part of our carbon management plan. The all-new Range Rover Evoque and LR2 vehicles include innovative stop start technology (on the diesel manual gearbox) and Intelligent Power System Management (IPSM) with regenerative braking, just two examples of e_TERRAIN™ TECHNOLOGIES that reduce our vehicles carbon footprint. What's more, Land Rover's Adaptive Dynamics System constantly monitors vehicle performance, to enhance driving and emissions efficiencies.

FACT

We will use life cycle assessment to understand the environmental impact of our vehicles, including the use of e_TERRAIN™ TECHNOLOGIES, beginning with Range Rover Evoque.

MANUFACTURING.

USING FEWER RESOURCES AND CREATING LESS WASTE

World class manufacturing facilities, certified to ISO14001 since 1998. As a company, we are targeting a 25 percent reduction in operating CO₂ emissions by 2012, 25 percent in waste to landfill and 10 percent in water consumption, based on 2007 levels. Our activities include factory energy efficiencies, cutting transport miles and the carbon offset of all CO₂ emissions from manufacturing assembly. But it doesn't stop there. Every new vehicle is designed to be 85 percent recyclable and reusable, in addition 95 percent recoverable and reusable, with 10 percent specifically for energy recovery.

FACT

Turning waste food into energy in a trial at our headquarters in Gaydon, has diverted 43 tonnes of waste from landfill and saved 3.7 tonnes of CO₂ emissions.

CO₂ OFFSETTING.

INVESTING IN RENEWABLE ENERGY, TECHNOLOGY CHANGE AND ENERGY EFFICIENCY PROJECTS

For every tonne of CO₂ emitted during the manufacturing assembly of all our vehicles, Land Rover invests in carbon reduction projects that reduce an equivalent tonne of CO₂ elsewhere. In addition, we enable our customers to offset their first 45,000 miles/72,000 km of driving in their new vehicles. We do this in the UK as well as countries in Europe, the Middle East and Asia. Independently administered by ClimateCare and Forum for the Future, CO₂ offsetting allows us to take action now, to reduce our impact on the environment, as part of our integrated carbon management plan.

FACT

We plan to offset approximately 3,000,000 tonnes of CO₂ emissions by 2012.

CONSERVATION

AND HUMANITARIAN PARTNERSHIPS. WORKING PARTNERSHIPS FOR CONSERVATION AND SOCIETY'S GAIN

Our vehicles are designed for purpose, so are used by conservation and humanitarian organisations worldwide. Working with our five Global Conservation partners and the International Federation of Red Cross and Red Crescent Societies (IFRC), Land Rover is proud to support the important work of the Royal Geographical Society (with IBG), The Born Free Foundation, Earthwatch Institute, Biosphere Expeditions and the China Exploration and Research Society.

FACT

In 2010, Land Rover launched a new three-year global initiative with the IFRC entitled 'Reaching Vulnerable People Around the World'. Land Rover has supported the IFRC's life saving work since 2007 and to date has given over £4m in vital funding and vehicle support to help vulnerable people around the world.
